Introduction

VisitEngland, VisitScotland and Visit Wales have commissioned a monthly COVID-19 consumer sentiment tracking survey to understand domestic intent to take overnight short breaks and holidays both within the UK and abroad, with particular focus around the current barriers and concerns around travel and how these will evolve over time.

The survey addresses: the likelihood of UK residents to travel; when and where they plan to go; specific trip details such as accommodation type and activities undertaken.

The tracker was conducted weekly for 13 consecutive weeks from May 2020 to August 2020, fortnightly from September 2020 to September 2021, and monthly from November 2021 onwards. Each wave is based on a UK nationally representative sample of c1,500 adults aged 16+, with a boost sample for Scotland and Wales.

This report is a deep dive into those who are looking to take a trip in autumn (and to a lesser extent winter) as well as more details on demographic differences than the monthly report.

The findings in this report are based on aggregating data from the July to September 2023 fieldwork. Fieldwork periods are as follows: July (3rd to 10th); August (1st to 7th); September (1st to 7th).

Definitions used within this report (1)

Chapter 2 in this report looks at trip Intenders with the following definitions:

1. **Autumn Intenders:** UK adults who intend to take a domestic overnight trip between October and December 2023
2. **Winter Intenders:** UK adults who intend to take a domestic overnight trip between January and March 2024
3. **Non-Intenders:** UK adults who do not currently intend to take any short breaks or holidays of 4+ nights over the next year

Chapter 3 looks at the profile and behaviour of **Autumn Intenders by destination type**. All individual destination types have sufficient base sizes among Autumn Intenders to show each destination type's profile. Destinations types included:

- Traditional coastal/ seaside town
- Countryside or village
- Rural coastline
- Smaller city or town
- Large city
- Mountains or hills

Definitions used within this report (2)

Chapter 4 at looks at Autumn intentions by destination region. All destination regions (below) are included but please note low base sizes on some (indicated within this chapter):

- North West
- North East
- Yorkshire and The Humber
- West Midlands
- East Midlands
- East of England
- London
- South East
- South West
- Scotland
- Wales

Definitions used within this report (3)

To deliver clearer profiles, we also segment by life stage. Life stages are preferable to 'age' as they better describe someone's life situation. For the purpose of this report, we have used the categories below:

- **Pre-Nesters:** Aged 16-34 without children in household
- **Families:** Aged 16-64 with children in household
- **Older Independents:** Aged 35-64 with no children in household
- **Retirees:** Aged 65+.

Please note, that whilst life stage is a good guide to 'life situation', it does not necessarily describe party composition on a trip. For example, not all 'families' will necessarily take a trip with their children.

1. The Rising Cost of Living and Covid

Overall, nearly half are concerned about the cost-of-living crisis, thinking ‘the worst is still to come’, with Pre-nesters the most pessimistic. Retirees and AB social grade are the most optimistic

Figure 1. Perception of the situation with regards to the cost of living crisis by life stage, September data, Percentage, UK

Nearly half state 'things are ok, but I have to be careful' in relation to the cost-of-living crisis. Those in C2/DE social grades, Pre-nesters and Older Independents are more likely to have been 'hit hard'

Figure 2. Breakdown of residents by financial segments in relation to the cost-of-living crisis, Percentage, September data, UK

Q17: There has been a lot of talk about how the 'cost of living crisis' has affected people's financial circumstances. If you had to choose, which ONE of the following statements would best describe your feelings about your own situation, right now?

Base: Total. n=1,756. Pre-Nesters n=273; Families n=673; Older Independents n=461; Retirees n=349; Social Grades AB n=539; C1 n=310; C2 n=370; DE n=552

Around 1 in 6 think the 'worst is still to come' with regards to Covid. Pre-Nesters are the most optimistic (54% saying 'the worst has passed').

2. Autumn and Winter Intenders Profile

1 in 3 plan on taking an overnight domestic trip this Autumn (October to December), 1 in 4 this Winter (January to March) – both ahead of intentions at the same point last year

Figure 4. Proportion anticipating going on any overnight UK trips, Percentage, September 2023 data, UK

QVB2a. Thinking of the next UK holiday or short break you are likely to take, when are you likely to plan, book and go on this trip? QVB2b. And when else do you anticipate going on a UK holiday or short break? Base: All respondents. December 2022 = 1,756

Note: Multiple choice question. Totals may exceed 100% as some respondents anticipate taking multiple trips across several time periods.

Compared to the total sample, there are more Families among trip intenders, particularly in winter. Older Independents and Retirees make up two-thirds of ‘non-intenders’

Figure 5. Life stage by UK overnight trip intention, Percentage, July to September data, UK

Both Autumn and Winter Intenders are more likely than average to be social grade AB. Non-Intenders are more likely to be social grade DE.

Figure 6. Social grade by UK overnight trip intention, Percentage, July to September data, UK

Those not planning any trips soon are more likely than intenders to state financial reasons as potential barriers to taking an overnight domestic trip

Figure 7. Top 10 Potential barriers for taking an overnight UK trip in next six months, Percentage Top 10, July to September data, UK

The cost-of-living crisis is most likely to influence Intenders' behaviour through 'choosing cheaper accommodation', 'spending less on eating out' and 'looking for more free things to do', although a range of cut-backs are anticipated

Figure 8. 'Cost of living' impact on UK holidays and short breaks, Percentage, July to September data, UK, Top 10

VB7c. How, if at all, would you say the 'cost of living crisis' is likely to influence your UK short breaks or holidays in the next six months?

Base: Autumn Intenders n=1,774; Winter Intenders n=1,090; Non-Intenders n=1,133

Note: Multiple choice question. Totals may exceed 100%.

Focusing on day trips, the 'cost of living crisis' is most likely to encourage trip intenders to 'look for more free things to do' and 'spend less on eating out'

Figure 9. 'Cost of living' impact on day trips, Percentage, July to September data, UK, Full list

VB7Cii. How, if at all, would you say the 'cost of living crisis' is likely to influence your day trips in the next few months?

Base: Autumn Intenders n=1,774; Winter Intenders n=1,090; Non-Intenders n=1,133

Note: Multiple choice question. Totals may exceed 100%.

Intenders from both periods share the same top two reasons for going on their next overnight trip – ‘family time or time with my partner’ and ‘to get away from it all and have a rest’.

Figure 10. Motivations for UK holidays and short breaks, Percentage, July to September data, UK, Full list

Question: VB6fii. Which of the following best describe your motivation/s for this trip?

Base: Autumn Intenders n=1,774; Winter Intenders n=1,090

Note: Multiple choice question. Totals may exceed 100%.

Across both time periods, ‘trying local food and drink’ and ‘walking, hiking or rambling’ are the main two activities for an overnight trip

Figure 11. Activities for UK holidays and short breaks, Percentage, July to September data, UK, Full list

Question: VB6fiii. Which, if any, of these activities are you likely to do on your next UK short break or holiday in <INSERT MONTH FROM VB2A>?

Base: Autumn Intenders n=1,774; Winter Intenders n=1,090

Note: Multiple choice question. Totals may exceed 100%.

2. Autumn Intenders

Profile by Destination Type

Autumn Intenders are most likely to plan on taking their next overnight domestic trip in a countryside or village, followed by traditional coastal/seaside town and a large city

Figure 12. Main Destination Type of Intended Autumn Trip, Percentage, July to September data, UK

Some Autumn Intenders are considering more than one destination type. For example, 22% of those considering a traditional coastal/seaside town are also considering rural coastline

Table 1. Destination types also considered for Autumn Trips, Percentage, July to September data, UK, (Read chart vertically)

Column %	Traditional coastal/ seaside town	Countryside or village	Rural coastline	Smaller city or town	Large city	Mountains or hills

4. Autumn Intenders

Profile by Destination Region

The Southwest of England and London are the joint most preferred destinations for a domestic overnight trip this autumn

Figure 43. Next UK overnight trip destination region for Autumn Intenders, Percentage, July to September data, UK

QVB4a. Where in the UK are you likely to stay on this next trip in <INSERT MONTH FROM VB2(III)>?

Base: All respondents planning on taking a holiday or short break in the UK; Autumn Intenders n=806

Note: Multiple choice question. Totals may exceed 100% as some respondents anticipate using more than one type of accommodation.

For all regions, families are the largest life stage for trips this autumn*. Wales and London are the most likely to attract pre-nesters

Figure 44. Life stage of Autumn Intenders by destination region, Percentage, July to September data, UK

Sources: demographic questions and QVB4a. Where in the UK are you likely to stay on this next trip in <INSERT MONTH FROM VB2(III)>?

Base: All respondents planning on taking a holiday or short break in the UK in Autumn England n=881; Scotland n=150; Wales n=109; South West of England n=174; London n=189; South East of England n=111; North West n=144; North East n=70; West Midlands = 89, East Midlands = 74, East of England n=118, Yorkshire = 117

*Please note, that whilst life stage is a good guide to 'life situation', it does not necessarily describe party composition on a trip. For example, not all 'families' will necessarily take a trip with their children (see slide 35).

West Midlands and London are the regions most likely to attract higher AB social grades

Figure 45. Social grade of Autumn Intenders by destination region, Percentage, July to September data, UK

Social grade question and QVB4a. Where in the UK are you likely to stay on this next trip in <INSERT MONTH FROM VB2(III)>?

Methodology Notes

Methodology outline

- The findings in this report are based on an online survey conducted amongst a sample of the UK adult population.
- In the first stage a nationally representative core sample of 1,500 is recruited and interviewed. This sample is then 'boosted' in Wales and to ensure sufficient base sizes for separate nation analysis. The data are then weighted to make the sample representative of the UK overall and within each nation.
