Introduction

- VisitEngland, VisitScotland and Visit Wales have commissioned a Domestic Sentiment Tracker to understand the impact of major events, such as the cost-of-living crisis, on the UK public’s intent to take overnight trips, both within the UK and abroad.
- The survey addresses areas, such as: current attitude to travel (incl. concerns around travel and reassurances needed from the tourism sector), intentions of UK residents to travel for day trips, short breaks and holidays, when they plan to book and when they plan to go on their trip, as well as the destination, type of location and accommodation for their intended trip.
- This tracker is based on a UK nationally representative sample of 1,500 adults aged 16+, with additional boosts for Scotland and Wales.
- Fieldwork tends to take place at the start of each month and this wave’s fieldwork was conducted between 1st to 7th December 2023.
- The results (both, reports and data tables) are made publicly available and updated each wave at the following website:
  https://www.visitbritain.org/domestic-sentiment-tracker
Definitions used within this report

In this report, we look at the behaviour and attitudes of a number of separate audiences depending on when they intend to take an overnight domestic trip.

- **January to March 2024 Intenders**: Residents of the UK who claim their next domestic overnight trip will take place between January to March 2024
- **April to June 2024 Intenders**: Residents of the UK who claim their next domestic overnight trip will take place between April to June 2024

We also segment respondents by life stage and use the following definitions:

- **Pre-Nesters**: Aged 16-34 without children in household
- **Families**: Aged 16-64 with children in household
- **Older Independents**: Aged 35-64 without children in household
- **Retirement age**: Aged 65+

1. Current General Sentiment
Fewer than half of respondents think ‘the worst is still to come’ in relation to the cost-of-living crisis, in line with recent months

Figure 1. Perception of the situation with regards to cost of living crisis, Percentage wave-on-wave, UK

[Diagram showing perception of the situation with regards to cost of living crisis]

Question: Q7b: And now regarding the ‘cost of living crisis’ in the UK and the way it is going to change in the coming few months, which of the following best describes your opinion? Base: All respondents. December 2023 = 1,758
Due to the cost-of-living crisis, most of UK adults (68%) are either ‘cautious and being very careful’ (47%) or have been ‘hit hard and are cutting back’ (21%).

Figure 2. Feelings about situation during the ‘cost of living crisis’, Percentage, UK

- I’m one of the lucky ones – better off than before the crisis
- I’m alright – the ‘cost of living crisis’ has not really affected me and confident it won’t
- I’m cautious - things are OK but I feel I have to be very careful
- I’ve been hit hard – no option but to cut back on spending
- Although I’ve been hit hard and should cut back, I’ll spend today and let tomorrow look after itself

Question: Q17: There has been a lot of talk about how the ‘cost of living crisis has affected people’s financial circumstances. If you had to choose, which ONE of the following statements would best describe your feelings about your own situation, right now? Base: All respondents. December 2023 = 1,758.
2. Trip Intentions: UK and Overseas
Overnight domestic trip intentions are above the levels anticipated back in December 2022, 78% are planning a trip in the next 12 months compared to 69% a year earlier.

Figure 5. Proportion anticipating going on any overnight UK trips, Percentage, December 2023, UK

Question: QVB2a. Thinking of your next UK holiday or short break, when are you likely to go on this trip? QVB2b. And when else do you anticipate going on a UK holiday or short break? Base: All respondents. December 2022= 1,760, December 2023 = 1,758. Note: Multiple choice question. Totals may exceed 100% as some respondents anticipate taking multiple trips across several time periods.
For overnight overseas trips, intentions are also above 2022 levels, 64% are planning an overseas trip in the next 12 months compared to 53% the year before.

Figure 5b. Proportion anticipating going on any overnight overseas trips, Percentage, December 2023, UK

Question: QVB2c. Thinking of your next OVERSEAS holiday or short break, when are you likely to go on this trip? QVB2d. And when else do you anticipate going on an overseas holiday or short break? Base: All respondents. December 2022 = 1,760, December 2023 = 1,758. Note: Multiple choice question. Totals may exceed 100% as some respondents anticipate taking multiple trips across several time periods.
Long term domestic overnight trip intentions remain relatively stable over the last few waves, while overseas intentions have improved significantly since the summer.

Question: VB14a. Now looking ahead again, are you intending to take any overnight business trips in the UK in the next three months? Please only answer yes if the overnight business trips are not a feature of your job. For example, if you are a long-distance lorry driver, airline crew or delivery service, an overnight stay would be a feature of the job so you would answer ‘no’. Please also answer ‘no’ if your only overnight business trip is a regular trip to your main place of work (e.g. a weekly or monthly trip to your office). Multiple choice question. Totals may exceed 100% as some respondents anticipate more than one business reason.

VB14b: What would be the main reason for this overnight business trip? Base: November 2023 respondents currently in employment n = 1,755. All taking a business trip n=222.
Methodology & Further Data
Methodology

- This report presents findings from the December 2023 wave of the Domestic Sentiment Tracker, with comparisons to previous months where appropriate.

- The survey is conducted online, among a sample of the UK adult population.

- In the first stage, a nationally representative core sample of 1,500 is recruited and interviewed. This sample is then ‘boosted’ for Wales and Scotland to ensure sufficient base sizes for separate nation analysis. The data are then weighted to make the sample representative of the UK overall and within each nation.

PLEASE NOTE:

- The current 6th phase of this project started in April 2023 and will run until March 2024.

- With this newly commissioned phase, the questionnaire was updated to address the cost of living crisis’ impact on trips intentions. It also covers the preference for domestic vs overseas overnight trips.

- Please note that because of the questionnaire updates, some questions are not comparable between this 6th phase and the previous phases / waves.
The full data tables are published on the VisitBritain website alongside this report and questions’ data not shown in this report are available to view there: https://www.visitbritain.org/domestic-sentiment-tracker

Extra questions available in the tables are:
- VB1b. Likely to spend more, less or about the same on holidays in the next 12 months, vs last 12 months
- VB9a/b. More/Less likely to visit leisure places in the UK in the next 12 months, vs last 12 months
- VB10a/b. More/Less likely to conduct leisure activities in the UK in the next 12 months, vs last 12 months
