

England Occupancy Survey

November 2025 Results

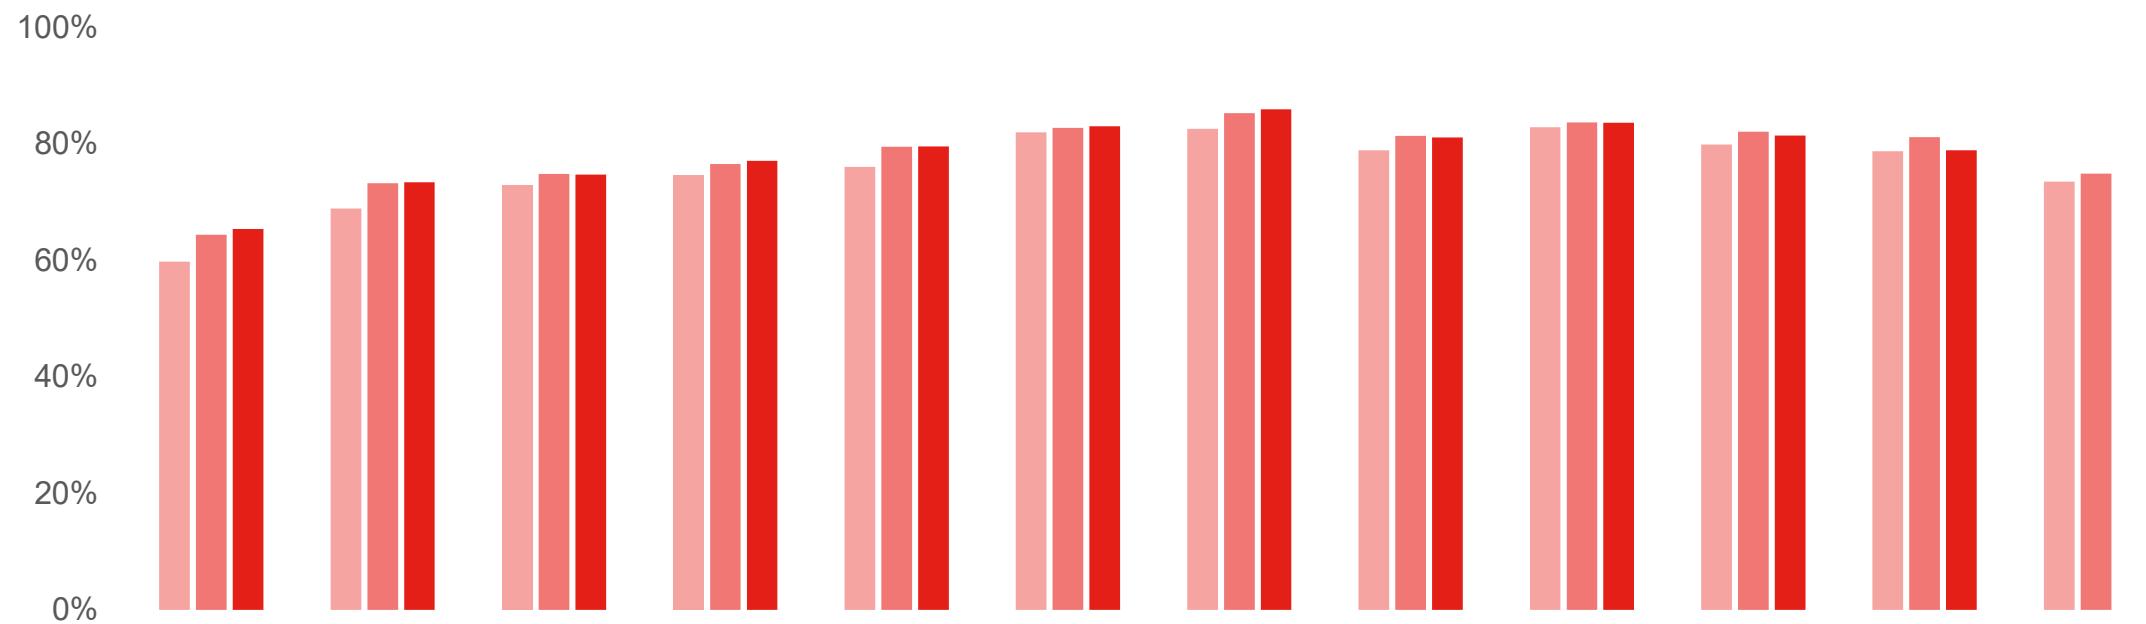

VisitEngland Research

Summary of Results

- **Hotel room occupancy** for November 2025 was 79%, down 2 percentage points on November 2024. This is supported by a decline in demand for rooms of -6.3%, whilst supply was down to a lower degree of -4.3%. Year to date (Jan-Nov) occupancy for 2025 was 79%, on par with the same period for 2024.
- Observing **forward looking occupancy** for the remainder of 2025. As of the 12th December, occupancy rates committed so far for December 2025 were 60%. This rate will rise as the month matures and more bookings are made.
- **Average Daily Rates** for England increased by 1% in November 2025 to £169, with **RevPAR** (Revenue per Available Room) falling slightly compared to November 2024 at £134, both sitting below the rate of inflation for November (3.2%). ADR for England excluding London was £103 (+1%), and RevPAR was £79 (-1%).
- **Regionally**, the South West recorded the greatest increase in occupancy compared to November 2024, rising by 3pp. In contrast, many regions saw declines with Yorkshire & Humberside experiencing the biggest year on year decline (-5pp) followed by the East of England (-4pp).
- The **largest hotels** had the largest year on year decline in occupancy, down 3% to 81% in November 2025.

Methodology

Methodology Statement

In May 2024, a change of suppliers was made to the hotel occupancy data. The data in this report is now provided by Amadeus, a hotel market data company, from their constantly growing panel of hotels across the UK.

This data set represents approximately a third of the estimated market so should be used as an indication of trends rather than the picture of the whole market.

Amadeus collects the following performance metrics from participating hotel on a daily basis through their online platform or data feeds:

- Number of rooms available
- Number of rooms sold
- Total room revenue

These baseline figures are used to calculate the three most relevant metrics within the accommodation industry namely: Occupancy, Average Daily Rate (ADR) and Revenue Per Available Room (RevPAR). All units given throughout this report represent a positive number, unless stated otherwise.

To allow a meaningful comparison of year-on-year trends, VisitEngland has included historical data from Amadeus in this reports from January 2019 onwards.

All previous months' reports and data can be found on the VisitEngland website: <https://www.visitbritain.org/research-insights/england-hotel-occupancy-latest>
