

GB Day Visits 2019
August 2019
GB & England

Day Visits: Definitions

- Respondents were asked to provide details of their participation, during the previous week, in a list of leisure activities. Any participation in a listed activity, outside of the respondent's home but in any place within the UK is considered to be a **Leisure Day Visit**.
- Respondents provided information on the volume of Leisure Day Visits taken and full details of any Leisure Day Visits lasting 3 hours or more. Where the details of these visits are reported they are described as **3+ hour Leisure Day Visits**.
- The main focus of this study is on **Tourism Day Visits**, which are a further subset of 3+ hour Leisure Day Visits defined as follows:
 - **Activities** - involving participation in one or more of the pre-listed activities;
 - **Duration** - lasting at least 3 hours, including time spent travelling to the destination;
 - **Regularity** - the participant indicates that the visit (i.e. same activity in same place) is not undertaken 'very regularly';
 - **Place** - the destination of the visit is different from the place (i.e. city, town, village or London borough) where the participant lives. If the visit is taken from a workplace, the destination is in a different place from the workplace. This rule is not applied when the visit has involved watching live sporting events, going to visitor attractions or going to special public events.
- We also measure the **Activities Core to Tourism Visits**, a subset of Tourism Day Visits, which only concern visits involving a selection of activities related to tourism.

Re-weighting of 2011 to 2015 data

- In 2016 the following changes were identified as necessary and implemented on the survey from January 2016:
 - Questionnaire improvements to make the survey more engaging and easy to complete
 - Questionnaire revisions required as part of the 'merging' of GBDVS with the GBTS online piloting
 - From January 2016 the weekly sample size contacted for the survey increased from 673 to 1,000
- This combination of small changes made to the GBDVS questionnaire had worked together to increase levels of visits reported by respondents by around **+15%**.
- As a result, the results from the past years in this report have all been revised to take into account this increase of **+15%** and thus make the data more comparable with the current scores.
