HEADLINE ANALYSIS:

- GB tourism in November 2011 compared to November 2010 recorded an increase of +13%. Bednights reported a minor decrease of -1%, whereas expenditure increased by +4%.
- It was a poor month for Scottish tourism with trips, bednights and expenditure decreasing by -16%, -40% and -24%, compared to November 2010. In contrast, Wales recorded a
 positive November with increases evident for trips (+58%), bednights (+48%) and expenditure (+90%). Trends in England were in line with GB results. Across the UK, November
 2010 was a much colder and snowy month than was the case in November 2011.
- The YTD change is similar to those reported in previous months. GB trips were ahead of 2010 with an increase of +8% between January and November. Nights and spend also increased by +6% and +13%. These figures indicate a continuing trend towards higher spending trips, most likely due to increasing travel costs.
- Consequently, in 2011, GB trips between January and November increased to 115.6m the highest level in the last six years. 2010 recorded 107.5m (8.1m fewer trips than 2011).
 Highlighting that the first eleven months off 2011 have been positive, the number of trips is higher than that recorded during a successful 2009 (112.0m) and previous years 2008 (104.9m), 2007 (109.7m) and 2006 (110.3m).

Please note that the latest 2011 results are provisional and subject to minor changes in subsequent months due to the inclusion of trip-takers returning from late trips. Pre-2011 results are based on full-year data so will not change.

All expenditure figures are in HISTORIC PRICES

HEADLINE ANALYSIS:

- GB holiday trips have seen an increase of +3% on November 2010. Bednights and expenditure reported decreases however of -5% and -0.2%. After experiencing a positive October, Scotland recorded a poor November with a decrease in holiday trips, nights and expenditure (down -28%, -29% and -35%). Although bednights in Wales decreased on November 2010 (-24%), expenditure increased by +14%, suggesting that although the length of the trips decreased, their value increased.
- YTD GB holiday trips recorded an increase of +5% on 2010, with nights and spend also increasing by +5% and +12% (similar to results seen in previous months).
- GB holiday trips during January to November 2011 (55.4m) outperformed the previous six years with the exception of 2009 (56.2m). Volumes for the other years were: 2010 (52.6m), 2008 (47.8m), 2007 (49.5m) and 2006 (48.8m).

Please note that the latest 2011 results are provisional and subject to minor changes in subsequent months due to the inclusion of trip-takers returning from late trips. Pre-2011 results are based on full-year data so will not change.

HEADLINE ANALYSIS:

- VFR holidays trips increased by +16% compared to November 2010, whereas bednights and expenditure reported a decrease of -5% and -6%. There were some significant variations between countries however with Wales reporting significant increases in trips, nights and expenditure (+49%, +70% and +33%). However, Scotland reported a fall in all three categories (-8%, -63% and -50%). Trends in England were in line with GB with the exception of bednights which has seen a +6% increase.
- YTD trips in GB up to November increased by +7% on 2010. Nights and expenditure also increased by +4% and 9% (similar to results seen in previous months).
- The encouraging first eleven months of 2011 (39.1m) has resulted in a greater number of VFR trips than in 2010 (36.6m), 2009 (37.1m), as well as outperforming 2008 (37.4m).
 Nonetheless, the best performing years for VFR tourism continue to be 2006 and 2007 (2006 (40.6m) and 2007 (40.2m)).

Please note that the latest 2011 results are provisional and subject to minor changes in subsequent months due to the inclusion of trip-takers returning from late trips. Pre-2011 results are based on full-year data so will not change.

HEADLINE ANALYSIS:

- November was a positive month for domestic GB business tourism with an increase of +15%, +6% and +9% for trips, bednights and expenditure. As with all tourism, holidays and VFR holidays, Wales had a very positive month, whereas Scotland reported decreases in trips, bednights and expenditure.
- YTD to November, GB business trips, nights and expenditure increased by +14%, +10% and +19%.
- Business trips during the January November period in 2011 (17.4m) have outperformed all previous years for the first time: 2010 (15.3m), 2009 (16.0m), 2008 (16.6m), 2007 (17.1m) and 2006 (17.1m).

Please note that the latest 2011 results are provisional and subject to minor changes in subsequent months due to the inclusion of trip-takers returning from late trips. Pre-2011 results are based on full-year data so will not change.

All expenditure figures are in HISTORIC PRICES

Undertaken by TNS Travel & Tourism Fieldwork: 9 November - 18 December TNS Face-to-Face Omnibus Survey
