Summary of Results

**Room occupancy** in August 2021 increased by 24% to 71% whilst bedspace occupancy in August 2021 increased by 18% to 53% when compared to August 2020. In August 2021, room supply increased by 9.5% when compared to August 2020. Meanwhile, room demand increased by 64.9% when compared to the same month last year.

**RevPAR**, which is the total room revenue divided by the total number of available rooms, increased by 96% to £66.10 in August 2021 when compared to the same month last year.

Looking at hotel performance across **destination types**, City / Large Town hotel room occupancy increased the most by 26% to 69% followed by Small Town hotel occupancy which increased by 20% to 75% and Seaside hotel occupancy which increased by 6% to 87%. The smallest change from last year was recorded for Countryside hotels as occupancy increased by 5% to 80%.

Assessing occupancy rates by **establishment size**, hotels with 101+ rooms increased the most by 25% to 66% followed by hotels with 51 to 100 rooms which increased occupancy by 22% to 81% and hotels with 26 to 50 rooms which increased occupancy by 19% to 81%. The smallest change from last year was recorded for hotels with 1 to 25 rooms as occupancy increased by 14% to 78%.

Evaluating trends across the **9 regions** of England, all 9 regions achieved increased room occupancy compared to the same month last year. The four regions that recorded the greatest change in room occupancy from last year were West Midlands which increased occupancy by 29% to 72%, East Midlands which increased occupancy by 28% to 77%, Northwest England which increased occupancy by 28% to 76% and Northeast England which also increased occupancy by 28% to 82%.

Please see the Methodology Statement on page 16 regarding current data during the Covid-19 pandemic.
England Room and Bedspace Occupancy
At a glance - August 2021

*Please note: As of February 2019 occupancy percentage changes are expressed in absolute terms. For more information please see ‘Methodology Statement’ on page 16.

Methodology Statement

In July 2017, a change of suppliers was made to the occupancy data. The data is now collected via a syndicated panel of over 3,000 hotels and other accommodation businesses provided by Hotel Market Data and Benchmarking Company - STR. STR collects the following performance metrics from participating properties either on a daily or monthly basis through their online platform or data feeds:

- Number of rooms available
- Number of rooms sold
- Total room revenue

These baseline figures are used to calculate the three most relevant metrics within the accommodation industry namely: Occupancy, Average Daily Rate (ADR) and Revenue Per Available Room (RevPAR). All units given throughout this report represent a positive number, unless stated otherwise.

To allow a meaningful comparison of year-on-year trends, VisitEngland and STR have included historical data from STR's own participating properties in the reports from July 2017 onwards. The historical data displayed in these reports is not consistent with reports published prior to the July 2017 report.

Further details about STR's panel and data collection can be found in our methodology note.

All previous months’ reports and data can be found on the VisitEngland website.

In February 2019, a change in reporting style was made to refer to percentage changes of occupancy data in absolute terms. Please note that the room and bedspace occupancy figures in this report are rounded to the nearest whole number. As a result, occupancy absolute percentage change figures may have a discrepancy of ±1%. All previous reports prior to February 2019 show percentage changes of occupancy data in relative terms. ADR, RevPAR, Supply & Demand percentage changes continue to be shown in relative terms.

Due to Covid-19, the England hotel industry saw an unprecedented number of hotels temporarily close their doors starting in March of 2020. Throughout the pandemic, STR has continued to collect performance data from those hotels who remained open. The data in this month’s report is therefore only based on those hotels that were open and reported data to STR (N=3,388).
For information on how to contribute and participate in the England Occupancy Study and benefit from STR’s property level benchmarking reports, please email hotelinfo@str.com.
