Business Events Growth Programme
International Delegate Growth

Guidelines 2020/21

12 May 2020
Introduction

The International Delegate Growth strand of the programme helps growing the international attendance and profile of recurring business events held in the UK.

Financial support is available to recurring business events that are held in the UK, up to the value of £20,000 gross per event. Funds would be to support the growth in international attendees at the event, growing its economic benefit through additional international visitor spend, and also through encouraging greater international trade and investment potential for the UK. Exceptional proposals requiring more than £20,000 per bid, backed by a strong business case may be considered on a case by case basis (subject to available funds). In exceptional circumstances we may consider proposals requiring less than £5,000.

Funds could be used to support the following, indicative activities:

- International delegate marketing campaign through digital or trade media channels
- Attracting a high profile speaker that will be a draw card for international attendees (match-funding required)
- Targeted international trade delegations

These serve as examples and VisitBritain welcomes suggestions from applicants on further ideas to attract international delegates.

The following types of activities will not be supported:

- Business as usual costs (e.g. office rent, utilities)
- Compensation payments to employees for loss of office
- Payments that support activity intended to influence or attempt to influence Parliament, Government or political parties, or attempting to influence the awarding or renewal of contracts and grants, or attempting to influence legislative or regulatory action

You will need to set out what activities will be delivered, and by when, in your application as well as a project plan that highlights key delivery milestones and resource/budget allocation.

</tbody>
</table>
Does the funding proposal seek to grow the international profile and attendance of your domestic event? Yes/No  
To be eligible for support an increase of 20% delegate attendance should be achieved form an international audience (VisitBritain considers an ‘international’ event as one where at least 50% of total delegates/visitors are international (non-UK) visitors). Events that currently do not meet this benchmark must demonstrate how they intend to reach it through activity supported by the funds. Events that already meet this benchmark must indicate how this can be exceeded, and to what extent.

Does the event have the potential to further internationalise its profile and grow the international attendance through targeted activity? Yes/No  
This includes visitors/trade visitors, international buyer delegations / ‘hosted’ buyers, conference delegates and international press. Proposals that seek to grow exhibitors or sponsors will not be considered.

Does the event have large UK trade and investment potential; both during the event (international delegates attending) and also the potential for future trade and investment post-event? Yes/No

Does the event clearly align with one of the priority sectors for UK industry? Yes/No

Does this funding application support new, additional activities to grow international delegates at your event? Yes/No  
The following does not qualify for support from the fund, activity already confirmed to take place, ‘business as usual’ costs, such as, but not limited to, help with running costs (e.g. rent, overheads, etc.), salaries for existing or new positions within your organisation and capital expenditure/replacing equipment or in retrospect of expenditure already made.

If successful, will event marketing activity incorporate approved GREAT Britain campaign branding? Yes/No  
Any marketing activity funded by this programme will require the inclusion of approved GREAT Britain Campaign branding. GREAT showcases the best of what the country has to offer, to inspire the world and encourage people to visit, do business, invest and study in the UK. It is HM Government’s most ambitious international promotional campaign ever, uniting the efforts of the public and private sector to generate jobs and growth for Britain. You will be given access to the brand guidelines assets and contacts to approve the brand’s use. Any activities that could bring GREAT into disrepute do not qualify for support from the Programme.

If successful, will you be able to supply an evaluation plan that measures the success of funded activity? Yes/No  
If your application is conditionally approved, you will need to provide and agree evaluation plan that includes robust methodology that measures tangible outputs and outcomes from all funded support. Reporting is not restricted to the funding period, and could take place in future financial year.

If successful, will you be able to provide the following, necessary information? Yes/No  
Completed grant claims to draw down funding, which must include copies of invoices and receipts as evidence of payment. A project monitoring report alongside each grant claim highlighting all GREAT branding utilised e.g. marketing materials and good quality images from event activity including the GREAT brand.

Has your organisation received less than €200,000 (approximately £169,000 at the time of writing) in de minimis State Aid within the past 3 financial years? Yes/No  
If your answer is NO to this question, we regret that you cannot proceed with an application. Support from this grant fund operates under the European Commission’s State Aid Regulations which allows de minimis aid up to €200,000 over a rolling three-year financial period awarded by public bodies and local authorities. This value can be a combination of grants over the given period. Please note, if your application is successful, a de minimis State Aid Declaration from the organisation applying for support will be required before a grant can be awarded. In particular, such confirmation must specify that the organisation and the applicable project is state aid compliant.

(Criteria last update: March 2020)
