Introduction

• VisitEngland, VisitScotland and Visit Wales have commissioned a Domestic Sentiment Tracker to understand the impact of major events such as the rising cost of living crises on the UK public’s intent to take overnight trips, both within the UK and abroad.

• The survey addresses areas such as: current attitude to travel (incl. concerns around travel and reassurances needed from the tourism sector), intentions of UK residents to travel for day trips, short breaks and holidays, when they plan to book and when they plan to go on their trip, as well as the destination, type of location and accommodation of their intended trip.

• This tracker is based on a UK nationally representative sample of 1,500 adults aged 16+, with additional boosts for Scotland and Wales.

• Fieldwork tends to take place at the start of each month and this wave’s fieldwork was conducted between 8th – 14th June 2022.

• The results (both, reports and data tables) are made publicly available and updated each wave at the following website:

  https://www.visitbritain.org/domestic-sentiment-tracker
Methodology note

- The June wave is the first wave of the new, fifth, phase. This phase will run until March 2022.

- With this newly commissioned phase, the questionnaire was updated to address the cost of living crises impact on trips intentions. It now also covers the preference for domestic vs overseas overnight trips.

- Please note that as a result of the questionnaire updates, some questions are not comparable between June and the previous waves.

- This affects for example sl. 12 Trips Intentions by month – to make space for new, more topical questions, this question was simplified and this small structural change means that we cannot compare June vs May.
Definitions used within this report

In this report, we look at the profiles and attitudes of a number of separate audiences depending on when they intend to take an overnight domestic trip.

- **July to September 2022 Intenders**: Residents of the UK who claim their next domestic overnight trip will take place between **July and September 2022**
- **October to December 2022 Intenders**: Residents of the UK who claim their next domestic overnight trip will take place between **October and December 2022**

Figure 28. Activities for UK holidays and short breaks, in July to September 2022, Percentage, June 2022, UK, Full list

Figure 29. Activities for UK holidays and short breaks, in October – December 2022, Percentage, June 2022, UK, Full list

VB6fiii. Which, if any, of these activities are you likely to do on your next UK short break or holiday in <INSERT MONTH FROM VB2A>? Base: All June 2022 respondents planning on taking a holiday or short break in the UK between July to September 2022 n = 732, October to December 2022 n = 233. Note: Multiple choice question. Totals may exceed 100%.
The next UK day trip intention by destination type

20% of UK adults intend to take any type of day trip by the end of the month, a similar proportion to both May and April. ‘Countryside or village’ is the destination type most likely to generate a day trip by June and July 2022, while ‘traditional coastal/seaside town’ is most popular by the end of September.

Figure 30. Next UK day trip intention between June 2022 and December 2022, Cumulative percentages, June 2022, UK

Any day trip in the next month: 20% (22% for intentions stated in May, and 20% in April)
4. Past UK and Overseas Trips
Nearly 6 in 10 (58%) of UK adults have taken an overnight UK trip since June 2021, nearly twice as many as have taken an overseas overnight trip in that period (30%). Both types of trips are most likely to have been taken in July to September 2021 (domestic: 26% and overseas: 10%).

VB13c. Where in the UK did you stay on your most recent trip in <INSERT MOST RECENT MONTH>? VB13e. And which of the following best describe the purpose/s of your most recent trip in <INSERT MOST RECENT MONTH >?
Base: All June 2022 respondents that took an overnight trips in the last three months n=355
Note: Multiple choice questions. Totals may exceed 100% as some respondents stayed in more than one location or travelled for more than one purpose
5. Overnight Business Trip Intentions (May 2020 data *)

Note: * Overnight Business Trip Intentions questions are asked every second month
Intentions for overnight business trips in the next three months (May data)

17% of UK adults in employment plan on taking an overnight business trip in the next 3 months (relatively consistent with the previous 5 waves). ‘Meeting 6 or more people’ is the leading reason for taking one (at 30%), followed by ‘team building’ (at 27%).

Figure 34. Proportion anticipating an overnight business trip in next 3 months, Percentage, May 2022, UK adults in employment

Figure 35. Reasons for taking an overnight business trip in next 3 months, Percentage, May 2022, UK adults in employment planning a trip

VB14a. Now looking ahead again, are you intending to take any overnight business trips in the UK in the next three months? Please only answer yes if the overnight business trips are not a feature of your job. For example, if you are a long-distance lorry driver, airline crew or delivery service, an overnight stay would be a feature of the job so you would answer ‘no’. Please also answer ‘no’ if your only overnight business trip is a regular trip to your main place of work (e.g. a weekly or monthly trip to your office). Multiple choice question. Totals may exceed 100% as some respondents anticipate more than one business reason.

VB14b: What would be the main reason for this overnight business trip? Base: May respondents currently in employment n = 1,347. All taking a business trip n=242
6. Methodology
Methodology

- This report presents findings from the June 2022 wave of the Domestic Sentiment Tracker, with comparisons to previous months where appropriate.
- The survey is conducted online, among a sample of the UK adult population.
- In the first stage, a nationally representative core sample of 1,500 is recruited and interviewed. This sample is then ‘boosted’ for Wales and Scotland to ensure sufficient base sizes for separate nation analysis. The data are then weighted to make the sample representative of the UK overall and within each nation.
- June 2022 fieldwork was conducted between 8-14 June 2022.
