COVID-19 Consumer Tracker

January 2022

Published: January 2022
Fieldwork Period: 4th – 10th January 2022

UK Results
Introduction

- VisitEngland, VisitScotland and Visit Wales have commissioned a Covid-19 consumer sentiment tracking survey to understand domestic intent to take overnight trips, both within the UK and abroad.
- The survey addresses areas such as: current attitude to travel (incl. concerns around travel and reassurances needed from the tourism sector), intentions of UK residents to travel for day trips, short breaks and holidays, when they plan to book and when they plan to go on their trip, as well as the destination, type of location and accommodation of their intended trip.
- This tracker is based on a UK nationally representative sample of 1,500 adults aged 16+, with additional boosts for Scotland and Wales.
- Fieldwork tends to take place at the start of each month and this wave’s fieldwork was conducted between 4th – 10th January 2022.
- The results are made publicly available and updated each wave at the following website: https://www.visitbritain.org/covid-19-consumer-sentiment-tracker
Definitions used within this report

In this report we look at the profiles and attitudes of a number of separate audiences depending on when they intend to take an overnight domestic trip.

- **January to March 2022 Intenders:** Residents of the UK who claim their next domestic overnight trip will take place between January and March 2022.

- **April to June 2022 Intenders:** Residents of the UK who claim their next domestic overnight trip will take place between April and June 2022.

* Represents a significant change on previous wave
1. Covid Impact on Attitudes to Travel
The Current Mood

Compared with December 2021, the average mood of UK adults has improved slightly by 0.1 points to 6.7 out of 10 – levels are now in line with October 2021.

Figure 1. Current mood out of 10, Percentage wave-on-wave, UK
The perception of the current situation in relation to COVID-19 has improved since December 2021 – the UK public who think ‘the worst has passed’ (33%) now higher than those who feel ‘the worst is still to come’ (28%).

Figure 2. Perception of the situation with regards to COVID-19, Percentage wave-on-wave, UK

Q7: Regarding the situation of Coronavirus in the UK and the way it is going to change in the coming month, which of the following best describes your opinion?
Base: All respondents. January 2022 = 1,755 All other months n=c.1,750. Pre June 2020, research was conducted by BVA BDRC with base size of c.750
Note: Fieldwork for each month took place at the start of each month – exact dates vary). October data is taken from BVA BDRC survey.
Comfort levels with everyday activities

The ‘appetite for risk’ score remains the same as in December 2021 at 2.8 out of 4. Most of the individual activities record no significant changes.

Figure 5. Level of comfort conducting a range of activities separately and combined, average score where 1= not at all comfortable doing activity and 4= very comfortable doing activity, average wave-on-wave, UK

The ‘appetite for risk’ score remains the same as in December 2021 at 2.8 out of 4. Most of the individual activities record no significant changes.

QVB2a. Thinking of the next UK holiday or short break you are likely to take, when are you likely to plan, book and go on this trip? QVB2b. And when else do you anticipate going on a UK holiday or short break? QVB2c. Thinking of the next overseas holiday or short break you are likely to take, when are you likely to plan, book and go on this trip? QVB2d. And when else do you anticipate going on an overseas holiday or short break? Base: All January respondents. Apr-Jun 2022 UK overnight trips = 448 Overseas trips = 288 Note: Multiple choice question. Totals may exceed 100% as some respondents anticipate taking multiple trips across several time periods.
Confidence in the ability to take overnight UK and Overseas trips

Just under half of the UK population are confident that a UK holiday or short break would go ahead in January and February, before picking up from March onwards. Confidence for overseas trips is lower than for UK trips, with less than a third being confident in the ability to take an overnight trip abroad in the next 3 months.

Figure 9. Confidence in taking a UK and Overseas overnight trip across different time periods, NET Confident (Very confident + fairly confident) Percentage, January 2022, UK

VB7a. We’d like you to imagine that you have booked a UK holiday or short break in each of the time periods listed below. How confident are you that you would be able to go on these UK trips in these months? VB7d. We’d like you to imagine that you have booked an overseas holiday or short break in each of the time periods listed below. How confident are you that you would be able to go on these UK trips in these months?
Base: All respondents. January 2022 = 1,755
Perceived barriers to taking overnight UK and Overseas trips between Jan’22 and Mar’22

The main perceived barriers to taking an overnight trip in the UK between January and March are ‘restrictions on travel from government’ and ‘personal finances’ (24% stating each). For overseas trips, ‘risk of quarantine’ is top at 27%, followed by ‘restrictions on travel from the government’ close behind (25%).

- Dec 2020/Jan 2021

QVB4a. Where in the UK are you likely to stay on this next trip in <INSERT MONTH FROM VB2(III)>?

Base: All December 2021 and January 2022 respondents planning on taking a holiday or short break in the UK between January to March 2022 n=451; April to June 2022 n=633; December 2020 and January 2021 respondents: January to March 2021 n=224, April to June 2021 n=526.

Note: Multiple choice question. Totals may exceed 100% as some respondents anticipate staying in more than one location.
Main mode of transport for the next overnight trip in the UK

Across both time periods, ‘own car’ is by far the leading main mode of transport for travelling to an overnight destination, followed by ‘train’ and then ‘plane’.

Figure 22. Top 5 main modes of travel to destination for trip in January to March 2022, Percentage, December 2021 and January 2022, UK

Figure 23. Top 5 main modes of travel to destination for trip in April to June 2022, Percentage, December 2021 and January 2022, UK
Accommodation type for the next overnight trip in the UK

‘A hotel/motel/inn’ is the leading accommodation choice between January and March 2022 (at 47%) with ‘a private home’ and ‘commercial rental’ close behind (at 42%). Between April and June 2022, ‘camping/caravan’ is the leading accommodation choice (at 43%).

QVB6a. What type/s of accommodation do you expect to be staying in during your UK trip in <insert month>?

Base: All December 2021 and January 2022 respondents planning on taking a holiday or short break in the UK between January to March 2022 n=451; April to June 2022 n=633; December 2020 and January 2021 respondents: January to March 2021 n=227, April to June 2021 n=526

Note: Multiple choice question. Totals may exceed 100% as some respondents anticipate using more than one type of accommodation.
Among the January to March 2022 intenders not planning on visiting a large city, ‘worried about catching COVID-19 in a large city’ (32%) and ‘fewer opportunities to do/places to visit’ (also 31%) are the leading reasons.

Figure 28: Reasons for not staying in a city amongst January to March intenders, Percentage, January 2022, UK

- More worried about catching COVID-19 in a large city: 31%
- Fewer things to do/places to visit: 31%
- Large cities tend to be too expensive: 29%
- Restrictions on opportunities to socialise: 24%
- I will stay in a large city later in the year: 23%
- I don't trust other people to be responsible: 19%
- Fewer opportunities to eat/drink out: 18%
- It's not responsible to travel to a city in this period: 14%
- Local residents may be unwelcoming due to COVID-19: 10%
- There are no large cities in the U.K. I want to see: 10%
- I'm unwilling to travel to a large city until I get a 'booster vaccine': 5%
- Other: 18%
- I wouldn't stay in one regardless of COVID: 14%
Next UK day trip intention by destination type

18% of UK adults intend to take any type of day trip by the end of the month. ‘Countryside or village’ is the destination type most likely to generate a day trip by June 2022, while ‘traditional coastal/seaside town’ becomes the most popular destination by September.

Figure 29. Next UK day trip intention between January 2022 and December 2022, Cumulative percentages, January 2022, UK

QVB16a. Are you likely to go on any day trips to the following types of places in these time periods? January 2022 = 1,755
4. Overnight Business Trip Intentions
Intentions for overnight business trips in the next three months

16% of UK adults in employment plan on taking an overnight business trip in the next 3 months (down 4 percentage points on December 2021). ‘Team building’ is the leading reason for taking one.

Figure 30. Proportion anticipating an overnight business trip in next 3 months, Percentage, January 2022, UK adults in employment

Figure 31. Reasons for taking an overnight business trip in next 3 months, Percentage, January 2022, UK adults in employment planning a trip

79% of UK adults interviewed are in employment

16% of UK adults in employment plan on taking an overnight business trip in the next 3 months (down 4 percentage points on December 2021). ‘Team building’ is the leading reason for taking one.

VB14a. Now looking ahead again, are you intending to take any overnight business trips in the UK in the next three months? Please only answer yes if the overnight business trips are not a feature of your job. For example, if you are a long-distance lorry driver, airline crew or delivery service, an overnight stay would be a feature of the job so you would answer ‘no’. Please also answer ‘no’ if your only overnight business trip is a regular trip to your main place of work (e.g. a weekly or monthly trip to your office). Multiple choice question. Totals may exceed 100% as some respondents anticipate more than one business reason.

VB14b: What would be the main reason for this overnight business trip? Base: January respondents currently in employment n = 1251. All taking a business trip n=228
5. Past UK vs Overseas Trips
Proportion taken a UK and overseas trip since April 2021

Just over half (53%) of UK adults have taken an overnight UK trip since April, more than twice as many as have taken an overseas overnight trip in that period (21%). Both types of trips are most likely to have been taken between July and September.

Figure 32. Proportion taken an overnight UK or overseas trip in below time period, Percentage, January 2022, UK
The South West of England was the most popular destination for trips since September 2021, 17% of trip takers having stayed there. Holiday / leisure was the most dominant purpose for the overnight UK trip.

Methodology
Methodology

• This report presents findings from the January 2022 wave of the COVID-19 consumer sentiment tracker, with comparisons to previous months where appropriate.
• The survey is conducted online, among a sample of the UK adult population.
• In the first stage, a nationally representative core sample of 1,500 is recruited and interviewed. This sample is then ‘boosted’ for Wales and Scotland to ensure sufficient base sizes for separate nation analysis. The data are then weighted to make the sample representative of the UK overall and within each nation.
• January 2022 fieldwork was conducted between 4-10 January 2022.
Master Data Table
