COVID-19 Consumer Tracker

March 2022

Published: 15th March 2022
Fieldwork Period: 1st – 7th March 2022

UK Results
Introduction

• VisitEngland, VisitScotland and Visit Wales have commissioned a Covid-19 consumer sentiment tracking survey to understand domestic intent to take overnight trips, both within the UK and abroad.
• The survey addresses areas such as: current attitude to travel (incl. concerns around travel and reassurances needed from the tourism sector), intentions of UK residents to travel for day trips, short breaks and holidays, when they plan to book and when they plan to go on their trip, as well as the destination, type of location and accommodation of their intended trip.
• This tracker is based on a UK nationally representative sample of 1,500 adults aged 16+, with additional boosts for Scotland and Wales.
• Fieldwork tends to take place at the start of each month and this wave’s fieldwork was conducted between 1st – 7th March 2022.
• The results are made publicly available and updated each wave at the following website: https://www.visitbritain.org/covid-19-consumer-sentiment-tracker
Definitions used within this report

In this report, we look at the profiles and attitudes of a number of separate audiences depending on when they intend to take an overnight domestic trip.

- **April to June 2022 Intenders**: Residents of the UK who claim their next domestic overnight trip will take place between April and June 2022

- **July to September 2022 Intenders**: Residents of the UK who claim their next domestic overnight trip will take place between July and September 2022
# March 2022: Scorecard of Key Metrics

* Represents a statistically significant change on previous wave
1. Covid Impact on Attitudes to Travel
The perception of the current situation in relation to COVID-19 has improved since February 2022. The proportion of those who think ‘the worst has passed’ (57%) continues to rise.

Figure 2. Perception of the situation with regards to COVID-19, Percentage wave-on-wave, UK
Comfort levels with everyday activities

The ‘appetite for risk’ score has increased from 2.9 (out of 4) in February 2022 to 3.1 in March. Comfort levels have increased for all activities measured.

Figure 5. Level of comfort conducting a range of activities separately and combined, average score where 1= not at all comfortable doing activity and 4= very comfortable doing activity, average wave-on-wave, UK
Intention to visit leisure places in the UK

Out of the included places/venues, ‘restaurant with indoor seating’ is the venue most likely to be visited in the next month (36% intending to do so). ‘Cinema/theatre’ and ‘festival/exhibitions in an enclosed space’ are the venues most likely to be avoided in the next 12 months due to COVID-related reasons (10% and 11% stating this).

Figure 3. Intention to visit leisure venues, Percentage, March 2022, UK

VB9a. Which, if any, of these types of places in the UK are you likely to visit in the next 12 months? VB9b. Which, if any, are you likely to visit in the UK in the next month? VB9c. Which, if any, would you normally visit in the next 12 months, but will avoid due to COVID-19-related reasons (e.g. government restrictions, the risk of catching COVID-19 etc.)?
Base: All respondents. March 2022 = 1,756
Out of the activities included, ‘walking/hiking’ is the activity respondents are most likely to do in the next month (at 37%). ‘Indoor swimming’ and ‘spa/health treatments’ are the activity most likely to be avoided due to COVID-19 (8% stating this for each).

Figure 4. Intention to conduct leisure activities, Percentage, March 2022, UK

VB10a. Which, if any, of these types of activities are you likely to do in the UK in the next 12 months? VB10b. Which, if any, are you likely to do in the UK in the next month? Which, if any, would you normally do in the next 12 months, but will avoid due to COVID-19-related reasons (e.g. government restrictions, the risk of catching COVID-19 etc.)?

Base: All respondents. March 2022 = 1,756
Required conditions for indoor leisure / tourism providers

‘Free cancellation’ is the leading condition that UK adults deem essential for indoor leisure and tourism providers to have in place to encourage a visit (42% stating this). This is followed by ‘plentiful hand sanitizers’ (35%) and ‘enhanced cleaning regimes’ (34%). Overall, the net figures have declined compared to previous months.

Q63. Which, if any, of the following conditions would be essential for indoor tourism and leisure providers (e.g. indoor visitor attractions, restaurants, hotels etc.) to have in place for you to visit/use them over the next few months? Base: All respondents. March 2022 = 1,756
2. Trip Intentions: UK and overseas
Anticipated number of UK and overseas trips in next 12 months compared to last 12 months

The trend of increasing number of anticipated trips over the next 12 months compared to the past 12 months continues, with 31% expecting more UK trips and 22% expecting more overseas trips.

Figure 7. Number of UK overnight trips likely to take in next 12 months compared to the last 12 months, Percentage, March 2022, UK

- 3+ more: January 2022 = 11, February 2022 = 12, March 2022 = 11
- 1 or 2 more: January 2022 = 21, February 2022 = 23, March 2022 = 20
- About the same: January 2022 = 27, February 2022 = 27, March 2022 = 31
- 1 or 2 fewer: January 2022 = 10, February 2022 = 8, March 2022 = 10
- 3+ fewer: January 2022 = 3, February 2022 = 3, March 2022 = 3
- Don't know: January 2022 = 28, February 2022 = 27, March 2022 = 25

Figure 8. Number of Overseas overnight trips likely to take in next 12 months compared to the last 12 months, Percentage, March 2022, UK

- 3+ more: January 2022 = 3, February 2022 = 17, March 2022 = 4
- 1 or 2 more: January 2022 = 21, February 2022 = 18, March 2022 = 4
- About the same: January 2022 = 11, February 2022 = 11, March 2022 = 24
- 1 or 2 fewer: January 2022 = 5, February 2022 = 5, March 2022 = 10
- 3+ fewer: January 2022 = 43, February 2022 = 41, March 2022 = 40
- Don't know: January 2022 = 43, February 2022 = 41, March 2022 = 40

VB1a Thinking about the next 12 months, are you likely to take more, fewer or about the same number of UK and overseas holidays/short breaks as you took in the last 12 months? Base: All respondents. January 2022 = 1,755, February 2022 = 1,756, March 2022 = 1,756
Overnight trips intentions

3 in 5 (61%) of UK adults plan on taking an overnight domestic trip in the next 12 months, significantly more than the 44% planning to take an overnight overseas trip in this period.

Figure 8a. Proportion anticipating going on any overnight UK and overseas trips, Percentage, March 2022, UK

QVB2a. Thinking of the next UK holiday or short break you are likely to take, when are you likely to plan, book and go on this trip? QVB2b. And when else do you anticipate going on a UK holiday or short break? QVB2c. Thinking of the next overseas holiday or short break you are likely to take, when are you likely to plan, book and go on this trip? QVB2d. And when else do you anticipate going on an overseas holiday or short break? Base: All respondents. March 2022 = 1,756 Note: Multiple choice question. Totals may exceed 100% as some respondents anticipate taking multiple trips across several time periods.
Overnight trip intention trend – Apr-Jun’22 and Jul-Sep’22

The proportions of UK adults anticipating UK / overseas overnight trips are fairly stable for both Spring and Summer, with anticipations being better for domestic trips.

Figure 8b. Proportion anticipating going on any overnight UK and overseas trips, April-June 2022, Percentage, Wave-on-wave, March 2022, UK

Figure 8c. Proportion anticipating going on any overnight UK and overseas trips, July-September 2022, Percentage, Wave-on-wave, March 2022, UK

QVB2a. Thinking of the next UK holiday or short break you are likely to take, when are you likely to plan, book and go on this trip? QVB2b. And when else do you anticipate going on a UK holiday or short break? QVB2c. Thinking of the next overseas holiday or short break you are likely to take, when are you likely to plan, book and go on this trip? QVB2d. And when else do you anticipate going on an overseas holiday or short break? Base: All March respondents. Apr-Jun 2022 UK overnight trips = 408 Overseas trips = 221; July-Sept 2022 UK overnight trips = 646 Overseas trips = 386 Note: Multiple choice question. Totals may exceed 100% as some respondents anticipate taking multiple trips across several time periods.
Confidence in the ability to take an overnight trip

In March, confidence levels are broadly in line with those recorded in February. Confidence for overseas trips is lower than for UK trips, although the highest confidence for both domestic and overseas is during July to September 2022.

Figure 9. Confidence in taking a UK and Overseas overnight trip across different time periods, NET Confident (Very confident + fairly confident) Percentage, February and March 2022, UK

VB7a. We'd like you to imagine that you have booked a UK holiday or short break in each of the time periods listed below. How confident are you that you would be able to go on these UK trips in these months? VB7d. We'd like you to imagine that you have booked an overseas holiday or short break in each of the time periods listed below. How confident are you that you would be able to go on these UK trips in these months?
Base: All respondents. February 2022 = 1,756, March 2022 = 1,756
Perceived barriers to taking overnight UK and Overseas trips between Apr’22 and Jun’22

‘Personal finances’ are perceived to be the biggest barrier to taking overnight UK trips in April to June (31% stating this), followed by ‘UK weather’ (29%). For overseas trips, ‘personal finances’ is also the main barrier to taking a trip (25% stating this), followed by ‘rising costs of overseas travel’ (19%).

Figure 11. Barriers for taking an overnight UK trip April to June 2022, Percentage, March 2022, UK

- Personal finances: 31%
- UK weather: 29%
- Rising costs of holidays/leisure: 22%
- My general health: 16%
- Concerns about catching COVID-19: 14%

- The need to be fully vaccinated: 7%
- Unwelcoming residents due to COVID-19: 5%
- It’s not responsible to travel in this period: 5%
- Fewer things to do: 5%
- Waiting to be fully vaccinated: 3%
- Would never take trip in these months: 27%
COVID-19 influence on choice of destination - among next 12 months trip intenders

As a result of Covid-19, 18% of UK adults say they will ‘travel less because it is now more expensive’ when choosing a destination for their UK overnight trip in the next 12 months. Close behind this, UK adults expect to ‘take UK holidays at less busy times’ (17%) and are ‘more worried about trips not going ahead’ (16%).

VB13c. Where in the UK did you stay on your most recent trip in <INSERT MOST RECENT MONTH>? VB13e. And which of the following best describe the purpose/s of your most recent trip in <INSERT MOST RECENT MONTH >?
Base: All March 2022 respondents that took an overnight trips since September n=587
Note: Multiple choice questions. Totals may exceed 100% as some respondents stayed in more than one location or travelled for more than one purpose
Methodology
Methodology

• This report presents findings from the March 2022 wave of the COVID-19 consumer sentiment tracker, with comparisons to previous months where appropriate.

• The survey is conducted online, among a sample of the UK adult population.

• In the first stage, a nationally representative core sample of 1,500 is recruited and interviewed. This sample is then ‘boosted’ for Wales and Scotland to ensure sufficient base sizes for separate nation analysis. The data are then weighted to make the sample representative of the UK overall and within each nation.

• March 2022 fieldwork was conducted between 1-7 March 2022.
Master Data Table
