Introduction

• VisitEngland, VisitScotland and Visit Wales have commissioned a Covid-19 consumer sentiment tracking survey to understand domestic intent to take overnight trips, both within the UK and abroad.

• The survey addresses areas such as: current attitude to travel (incl. concerns around travel and reassurances needed from the tourism sector), intentions of UK residents to travel for day trips, short breaks and holidays, when they plan to book and when they plan to go on their trip, as well as the destination, type of location and accommodation of their intended trip.

• This tracker is based on a UK nationally representative sample of 1,500 adults aged 16+, with additional boosts for Scotland and Wales.

• Fieldwork tends to take place at the start of each month and this wave’s fieldwork was conducted between 1st – 7th April 2022.

• The results are made publicly available and updated each wave at the following website:
  https://www.visitbritain.org/covid-19-consumer-sentiment-tracker
In this report, we look at the profiles and attitudes of a number of separate audiences depending on when they intend to take an overnight domestic trip.

- **April to June 2022 Intenders:** Residents of the UK who claim their next domestic overnight trip will take place between **April and June 2022**

- **July to September 2022 Intenders:** Residents of the UK who claim their next domestic overnight trip will take place between **July and September 2022**
### April 2022: Scorecard of Key Metrics

**Top 3 barriers to taking a UK overnight trip from April to June**
1. Rising costs of living
2. Personal finances
3. Rising costs of holidays/leisure

**Top 3 barriers to taking an overseas overnight trip from April to June**
1. Rising costs of living
2. Personal finances
3. Rising costs of overseas travel

*Represents a statistically significant change on previous wave*
1. Covid Impact on Attitudes to Travel
Perceptions of the situation relating to COVID-19

From March to April, the proportion of those who think ‘the worst has passed’ has significantly declined from 57% to 38%, however, there is an increase in those who say that ‘things are going to stay the same’ (29% to 41%).

Figure 2. Perception of the situation with regards to COVID-19, Percentage wave-on-wave, UK
Compared to March, the ‘appetite for risk’ score has declined marginally by 0.1 to 3.0 (out of 4) in April 2022. This shift is apparent across all activities.

Figure 5. Level of comfort conducting a range of activities separately and combined, average score where 1= not at all comfortable doing activity and 4= very comfortable doing activity, average wave-on-wave, UK

1st lockdown
Local lockdowns
2nd lockdown
3rd lockdown
Vaccine rollout
24th Nov: Omicron 1st case
21st Feb: Living with Covid

VB11. Broadly speaking, how comfortable or uncomfortable would you feel doing the following in the next month or so? Base: All respondents excluding those stating ‘don’t know’ or who wouldn’t do activity under any circumstances. Mean average based on those that gave a score of 1-4. April 2022 = 1,758 All other months n=c.1750. Pre June 2020, research was conducted by BVA BDRC with base size of c.750
Note: These questions were not asked in October 2021
Out of the included places/venues, ‘beach or coastal walk/trail’ is the venue most likely to be visited in the next month (33% intending to do so). ‘Festival/exhibitions in an enclosed space’ is the venue most likely to be avoided in the next 12 months due to COVID-related reasons (13% stating this).

Figure 3. Intention to visit leisure venues, Percentage, April 2022, UK

VB9a. Which, if any, of these types of places in the UK are you likely to visit in the next 12 months? VB9b. Which, if any, are you likely to visit in the UK in the next month? VB9c. Which, if any, would you normally visit in the next 12 months, but will avoid due to COVID-19-related reasons (e.g. government restrictions, the risk of catching COVID-19 etc.)?
Base: All respondents. April 2022 = 1,758
Intention to conduct leisure activities in the UK

Out of the activities included, ‘walking/hiking’ is the activity respondents are most likely to do in the next month (at 37%). ‘Indoor swimming’ and ‘spa/health treatments’ are the activities most likely to be avoided due to COVID-19 (10% stating this for each).

Figure 4. Intention to conduct leisure activities, Percentage, April 2022, UK
Required conditions for indoor leisure / tourism providers

‘Free cancellation’ is the leading condition that UK adults deem essential for indoor leisure and tourism providers to have in place to encourage a visit (41% stating this). This is followed by ‘enhanced cleaning regimes’ (35%) and ‘plentiful hand sanitizers’ (also 35%). Overall, there is indicative increase in the net figures, compared to the previous month.

- Don't know: January 3%, February 4%, March 5%, April 4%

VB1a Thinking about the next 12 months, are you likely to take more, fewer or about the same number of UK and overseas holidays/short breaks as you took in the last 12 months? Base: All respondents. January 2022 = 1,755, February 2022 = 1,756, March 2022 = 1,756, April 2022 = 1,758.
Overnight trips intentions

3 in 5 (60%) of UK adults plan on taking an overnight domestic trip in the next 12 months, significantly more than the 43% planning to take an overnight overseas trip in this period.

Figure 8a. Proportion anticipating going on any overnight UK and overseas trips, Percentage, April 2022, UK

QVB2a. Thinking of the next UK holiday or short break you are likely to take, when are you likely to plan, book and go on this trip? QVB2b. And when else do you anticipate going on a UK holiday or short break? QVB2c. Thinking of the next overseas holiday or short break you are likely to take, when are you likely to plan, book and go on this trip? QVB2d. And when else do you anticipate going on an overseas holiday or short break? Base: All respondents. April 2022 = 1,758 Note: Multiple choice question. Totals may exceed 100% as some respondents anticipate taking multiple trips across several time periods.
Overnight trip intention trend – Apr-Jun’22 and Jul-Sep’22

The proportion of UK adults anticipating UK overnight trips is fairly stable for both Spring and Summer. Overseas trip intentions have declined this wave.

Figure 8b. Proportion anticipating going on any overnight UK and overseas trips, April-June 2022, Percentage, Wave-on-wave, April 2022, UK

Figure 8c. Proportion anticipating going on any overnight UK and overseas trips, July-September 2022, Percentage, Wave-on-wave, April 2022, UK

QVB2a. Thinking of the next UK holiday or short break you are likely to take, when are you likely to plan, book and go on this trip? QVB2b. And when else do you anticipate going on a UK holiday or short break? QVB2c. Thinking of the next overseas holiday or short break you are likely to take, when are you likely to plan, book and go on this trip? QVB2d. And when else do you anticipate going on an overseas holiday or short break? Base: All April respondents. Apr-Jun 2022 UK overnight trips = 375 Overseas trips = 212; July-Sept 2022 UK overnight trips = 658 Overseas trips = 379 Note: Multiple choice question. Totals may exceed 100% as some respondents anticipate taking multiple trips across several time periods.
Confidence in the ability to take an overnight trip

Confidence levels in April are broadly in line with those recorded in March, with domestic trip confidence being higher than confidence for overseas trips.

Figure 9. Confidence in taking a UK and Overseas overnight trip across different time periods, NET Confident (Very confident + fairly confident) Percentage, March and April 2022, UK

---

VB7a. We’d like you to imagine that you have booked a UK holiday or short break in each of the time periods listed below. How confident are you that you would be able to go on these UK trips in these months? VB7d. We’d like you to imagine that you have booked an overseas holiday or short break in each of the time periods listed below. How confident are you that you would be able to go on these UK trips in these months?

Base: All respondents. March 2022 = 1,756, April 2022 = 1,758
Perceived barriers to taking overnight UK and Overseas trips between Apr’22 and Jun’22

‘Rising costs of living’ is the biggest perceived barrier to taking overnight UK trips between April and June (35% stating this), followed by ‘personal finances’ (31%) and ‘rising costs of holidays/leisure’ (29%). For overseas trips, ‘rising costs of living’ is also the main barrier to taking a trip (29% stating this), followed by ‘personal finances’ (27%).

Figure 11. Barriers for taking an overnight UK trip April to June 2022, Percentage, April 2022, UK

- Rising costs of living: 35%
- Personal finances: 31%

Plane: 4 6
Public bus/coach: 3 2

QVB4c. What do you anticipate being the main mode of travel to your holiday or short break destination?
Base: All March 2022 and April 2022 respondents planning on taking a holiday or short break in the UK between April to June 2022 n=746; July to September 2022 n = 854; March 2021 and April 2021 respondents: April to June 2021 n=462, July to September 2021 n=923
Accommodation type for the next overnight trip in the UK

For the next overnight trip in April to June 2022, as well as for trips in July to September 2022, there are four leading types of accommodation with similar proportions: ‘a hotel/motel/inn’, ‘a private home’, ‘camping/caravan’, and ‘commercial rental’. ‘Guest house / B&B / farm house’ follows behind.

Base: VB6a. What type/s of accommodation do you expect to be staying in during your next UK holiday or short break in? All March 2022 and April 2022 respondents planning on taking a holiday or short break in the UK between April to June 2022 n=746; July to September 2022 n = 854; March 2021 and April 2021 respondents: April to June 2021 n=462, July to September 2021 n=923 Note: Multiple choice question. Totals may exceed 100% as some respondents anticipate using more than one type of accommodation.
Visitor party make-up for the next overnight trip in the UK

‘Partner’ is the leading visitor party member for both time periods, followed by ‘child, grandchild or young adult with parents’ – the latter significantly higher between July and September.

Figure 26. Visitor party make-up for trips taken from April to June 2022, Percentage, March 2022 and April 2022, UK

Figure 27. Visitor party make-up for trips taken from July to September 2022, Percentage, March 2022 and April 2022, UK

QVB4d. With whom are you likely to be spending your holiday?
Base: All March 2022 and April 2022 respondents planning on taking a holiday or short break in the UK between April to June 2022 n=746; July to September 2022 n = 854; March 2021 and April 2021 respondents: April to June 2021 n=462, July to September 2021 n=923 Note: Multiple choice question. Totals may exceed 100% as some respondents anticipate a range of party types.
Reasons for not staying in a city on the next UK trip

Among April to June 2022 Intenders not planning on visiting a large city, ‘large cities tend to be too expensive’ (28%) is the leading reason with ‘fewer things to do/places to visit’ (27%) close behind.

Figure 28: Reasons for not staying in a city amongst April to June intenders, Percentage, April 2022, UK

- Large cities tend to be too expensive: 28%
- Fewer things to do/places to visit: 27%
- I am more worried about catching COVID-19 in a large city: 24%
- I don’t trust other people to be responsible: 18%
- I will stay in a large city later in the year: 18%
- There are no large cities in the U.K. I want to see: 17%
- Fewer opportunities to eat/drink out: 12%
- Local residents may be unwelcoming due to COVID-19: 12%
- Restrictions on opportunities to socialise: 11%
- It’s not responsible to travel to a city in this period: 9%
- I’m unwilling to travel to a large city until I get a ‘booster vaccine’: 2%
- Other: 10%
- I wouldn’t stay in one regardless of COVID: 22%
UK day trip intention by destination type

24% of UK adults intend to take any type of day trip by the end of the month, a 7% increase on March intention. ‘Countryside or village’ is the destination type most likely to generate a day trip by June 2022, while ‘traditional coastal/seaside town’ is more popular by the end of September.

Any day trip in the next month: 24% (17% for intentions stated in March)

QVB16a. Are you likely to go on any day trips to the following types of places in these time periods? April 2022 = 1,758
4. Overnight Business Trip Intentions
Intentions for overnight business trips in the next three months

17% of UK adults in employment plan on taking an overnight business trip in the next 3 months (relatively consistent with the previous 5 waves). ‘Conferences’ are the leading reason for a business trip (at 30%), followed by ‘team building’ (at 29%).

Figure 30. Proportion anticipating an overnight business trip in next 3 months, Percentage, April 2022, UK adults in employment

81% of UK adults interviewed are in employment

Figure 31. Reasons for taking an overnight business trip in next 3 months, Percentage, April 2022, UK adults in employment planning a trip

VB14a. Now looking ahead again, are you intending to take any overnight business trips in the UK in the next three months? Please only answer yes if the overnight business trips are not a feature of your job. For example, if you are a long-distance lorry driver, airline crew or delivery service, an overnight stay would be a feature of the job so you would answer ‘no’. Please also answer ‘no’ if your only overnight business trip is a regular trip to your main place of work (e.g. a weekly or monthly trip to your office). Multiple choice question. Totals may exceed 100% as some respondents anticipate more than one business reason.

VB14b: What would be the main reason for this overnight business trip? Base: April respondents currently in employment n = 1359. All taking a business trip n=236
5. Past UK vs Overseas Trips
Proportion taken a UK and overseas trip since April 2021

Just under half (48%) of UK adults have taken an overnight UK trip since April 2021, more than twice as many as have taken an overseas overnight trip in that period (23%). Both types of trips are most likely to have been taken in July to September (domestic: 26% and overseas: 9%).

Figure 32. Proportion taken an overnight UK or overseas trip in below time period, Percentage, April 2022, UK
Where stayed and purpose of last UK overnight trip

The South West of England was the most popular destination for trips since September 2021, 16% of trip takers having stayed there. Holiday / leisure was the most dominant purpose for overnight UK trips (69% having taken trips for this reason).

Methodology and Master Data
Methodology

- This report presents findings from the April 2022 wave of the COVID-19 consumer sentiment tracker, with comparisons to previous months where appropriate.
- The survey is conducted online, among a sample of the UK adult population.
- In the first stage, a nationally representative core sample of 1,500 is recruited and interviewed. This sample is then ‘boosted’ for Wales and Scotland to ensure sufficient base sizes for separate nation analysis. The data are then weighted to make the sample representative of the UK overall and within each nation.
- April 2022 fieldwork was conducted between 1-7 April 2022.
